tutoriel

Windows Server Update Services (WSUS)

WSUS Offline Update permet de mettre à jour un ordinateur sous Microsoft Windows et/ou Office de manière sûre, rapide et sans avoir besoin d'une connexion Internet.

Il télécharge les mises à jour depuis les serveurs Windows et permet de les déployer depuis un support amovible DVD ou USB.

Pratique pour réinstaller un PC : en quelques clics, il est possible d'appliquer toutes les mises à jour bien plus rapidement que par le réseau.

Ce petit logiciel évite des heures de téléchargements sur Windows Update après un reformatage.

Pré-requis

Première étape

- 1. **Téléchargez l'application** sur le site de WSUS Offline : http://download.wsusoffline.net/ pour créer le support avec **WSUS Offline UpdateGenerator** (sur CD, DVD ou support amovible).
- 2. Lancez WSUS Offline UpdateGenerator et cochez les cases selon les mises à jour à exporter sur le support.

- 5. **Renseignez les options** en bas de la fenêtre à inclure (services packs, .NET Framework 3.5 et 4, définitions de Virus MS Security Essentials)
- 6. Choisissez aussi :
 - 1. création du DVD (iso)
 - 2. et/ou copie sur USB.
- Cliquez sur **Start** pour lancer le téléchargement des mises à jour sélectionnées et la création de l'ISO.

Autres étapes

Pour l'utiliser :

1. Lancez l'exécutable UpdateGenerator.exe en intégrant ou non quelques options :

elect desired options and click "Start" o install missing Microsoft updates on y Installation	Your computer. Medium into Build: 18/10/2010
Back up existing system files	Install Office file format converters
Install Internet Explorer 7	install Internet Explorer 8
🕑 Update Windows Media Player	Update Terminal Services Client
Install NET Framework 3.5 SP1	Install .NET Framework 4
Install PowerShell 2.0	Install Microsoft Security Essentials
Control	
Verify installation packages	Automatic reboot and recall
Shut down after updating	Show log file

2. **Cliquez sur Start** pour lancer la mise à jour de votre système. Après un scan de votre PC WSUS Offline détermine les mises à jour à installer, puis vous les installe.

3. **une fois l'installation terminée**, un message vous invite à rebooter votre ordinateur pour appliquer les mises à jour :

Installation successful. Please reboot your system now.

Conclusion
